

Building Database Applications- Lab 5– ADR- Architectural Decision Records

1. Introduction.
 - a. You can find information about ADR in Lecture 4.
 - b. The file type is arbitrary. It could be docx or txt.
 - c. For those interested, it is possible to use an extension for Visual Studio Code and create documentation using this tool. Link for tool: <https://github.com/adr/vscode-adr-manager-introduction>
 - d. Rember about structure of ADR file.
2. Imagin simple project for e-commerce and create ADR file about:
 - a. Framework and technology
 - b. Database engine
 - c. Authorization method

Good Luck.
